FREEStyle GOLD KeyMacro Theme Themes created by GeeRox for Windows 7, Vista, XP and Mac OSX. Some are more interesting than others. I have tried to focus on the older ones that you would expect to find around. Enjoy and don't forget to click on the highlighted free download button at the end of the page for each one, or just the one you want. They all have different intros so you can choose the one you like best. If you click on the short video of the theme you can see how it works. WANT to make your own theme

from these images? Download the file and in your word processor create a page with the background you like and text. When finished save it as “.jpg”. You can save in your “pictures” folder and then set as your desktop background. Or save it to your desktop and rename it to your theme name. For instance, I saved the above picture in my word processor as “cpsCODE.jpg” and then renamed it to my theme name (this theme is called “COLD COFFEE”) and it appeared as my background. I did this for the other 8 themes. So now I have over 200 different backgrounds to choose from. There are 14 original themes with intro and no intro and over 200 variations of those 14 themes with intro and no intro. I was able to create all the different variations from the original. You can create your own style with any of these images. I hope you get something interesting from these themes. The paper textures and city lights were taken by myself. As usual you can download any of the images as a wallpaper by clicking on the highlighted download button. I hope you find something useful in this collection of free backgrounds. I like to thank all of my friends for their support and encouragement with this project. BURN: KeyMacro’s USB drive and memory stick with a 77a5ca646e

You may also be interested in these reviews More cities and styles I'm a huge fan of how Vancouver looks at night in these images, particularly in the second one. Seattle has nice skyscrapers but the buildings are so close together that they look a bit barren and over-populated. Vancouver has

a softer quality, with a few skyscrapers and a much wider area of detail. The cities also look a little different from each other. Vancouver and Seattle are very similar but the clouds and the overall lighting feel very different. There's a big difference in the colours too, Vancouver's are more pronounced and richer. It's definitely worth getting because the quality of the photos is so high and because there are plenty of styles available. Was this review helpful? 49 out of 77 people found this review helpful.
