HTML 5 Web Server - gautam1112 ===== abrahamsen is a JavaScript implementation. ----- hug Here's a blog post with some links: [----- phillmv I wonder how many of these 'web servers' are actually implemented in javascript. It's not really the best language for such a purpose. ~~~ mindcrime That's a fair point, but I'm not seeing it discussed here. I did some searching and came across a bunch of HTML5 and other "HTML" implementations written in JavaScript: [[[~~~ phillmv I'm talking about the implementation that comes with a standalone server like this one.
