A warrior born on an isolated island, the seven gods (the Elden Ring) formed the Guild of Mages to battle against the Great Evils that began corrupting the world. They shared their power with the world in exchange for its stabilization. However, the evil sensed their weakness and began its assault on them. The seven gods abandoned their territory and vanished. In the hope that the world will stabilize, the guild sealed the entrance to the seven islands and suspended all activity. A millennium has passed in peace. However, an ancient Elder God, corrupted by the Great Evil, has appeared and opened the seven

islands. The Gods have returned. So it was that the seven islands ended up in the Lands Between. Despite being sealed off from the outside world, the Lands Between has come to be a mysterious and dangerous place.

DISCOVER THE LANDS BETWEEN 1. THE BEGINNING / THE END

- The Lands Between is the world over which the seven gods sealed the entrance to their islands after the Great Evil appeared. The lands of the world have been turned into a battleground between the Seven Elden Gods and the Great Evil.

- When the gods used their magic to seal their original world away, the ban of "No Death" (death and all related things must be prohibited) was placed on all living beings. However, the seal on the worlds ceased to function after a millennium, and death once again began to reign.

2. THE ISLES OF THE NETHERWORLD

- The seven islands where the gods currently reside are the Isles of the

Nethersworld. After sealing the seven worlds, the gods sealed themselves in the various worlds of the netherworld. •The god that commanded the seven islands to seal their worlds made them live in this world, which is the maze-like lands between the seven worlds, in order to protect the seven worlds. •However, the god's actions have created their own counterattack, which they call the Great Evil. This evil is a phenomenon unique to the Seven Elden Gods, which the living world has not seen before. •The seven
